Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's arguments with respect to claims 216-264 have been considered but are moot in view of the new ground(s) of rejection.

Information Disclosure Statement

Applicant is hereby requested, with regard to future Information Disclosure Statements, to only provide a listing of newly presented references.

The Information Disclosure Statements of 1-16-08 and 1-22-08 have been considered.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 216-264 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Independent claims 216 and 244 each recite new limitations regarding regions of the lens being symmetric about the optical axis. The limitation is considered to be new matter because the specification and claims as filed, only describe the lens to conform to various equations. Therefore the limitation "symmetric about the optical axis", without a limitation regarding the equations forming

Art Unit: 3774

the symmetric pattern, is broader in scope than the original disclosure. In other words, this limitation includes embodiments for a lens comprising symmetric portions which were not disclosed in the original disclosure.

Claims 217-243 and 245-264 directly depend from, and include the limitations of claims 216 and 244.
